Dear Senator,

I am writing to alert you about the **Secure and Fair Enforcement Banking Act (H.R. 1996/S. 910)**. This bill is far from SAFE or FAIR to the people of our country and the impact will be devastating. This bill will open up our banking system to deceptive businesses that profit off addiction and target our children with pot candies and vapes. It will also expand the addiction and mental health crisis.

The science states, [early initiation of marijuana \(before 18 years\) is THE PREDOMINANT predictor of opioid use disorder](#) and we know youth marijuana [vaping](#) and [youth use rate](#) is increasing.

The science also states, marijuana is [addictive](#) and a [causal factor for psychosis](#). Once a person has a drug-induced psychotic episode, the THC in marijuana, compared to all the other drugs, has the [highest conversion rate to schizophrenia](#) (chronic psychosis).

As a result, marijuana legal states are experiencing an alarming [increase in](#)

[homeless cases compared to non-legal states.](#)

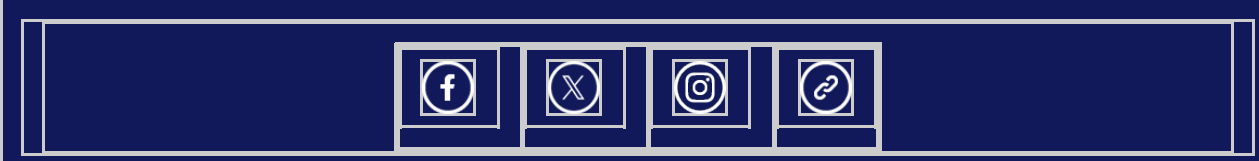

Passing this unsafe bill will cause more [impaired drivers](#) and [impaired workers](#) which will endanger the safety of innocent people on our roads and in many industries.

Supporting and protecting the expansion of these businesses encourages more people to use marijuana, which increases the [Black market trade](#) to epic levels.

Passing this **Secure and Fair Enforcement Banking Act** would be irresponsible and detrimental to the safety and well-being of our country, The United States of America. This is the perfect opportunity for our lawmakers, elected by the American people, to demonstrate that our Senate is truly looking out for the needs of the many, rather than the wants of the few. Protect our children and public health and safety, not the businesses who profit from the expansion of addiction, mental illness, and fatalities on our roads and in our workplaces.

Sincerely,

Please Donate to Keep Marijuana Messes Out of Texas!!
