Citizens for a Safe and Healthy Texas

Congratulations, Texas!!!

You Held The Line and Kept Marijuana Messes From Expanding In Texas!!

Dear CSHT supporters,

We have excellent news to share!! As a result of your support and hard work, the expansion of marijuana policies did not pass in the Texas legislative session of 2021!

HB 2593 failed!

Texas will not allow the expansion and normalization of marijuana!

Texas says no to increasing access to high-potency marijuana products!

Texas says no to marijuana products that are purposely designed to target our kids!

To read more about HB 2593: [Texas HB-2593: Smoke, Mirrors, and Far Too Many Unintended Consequences](#)

HB 3948 failed!

Texas will not allow the use of hemp or hemp by-products as a food commodity!

Texas says no to putting drugs like THC and CBD in our food supply!

Texas says no to putting other contaminants like heavy metals in our food supply!

Texas says no to allowing other harmful practices!

To read more about HB 3948: [Is Feeding Hemp to Cattle a Good Idea? A Health-Based Perspective](#)

HB 1535 passed but with limited changes.

The bill originally called for an increase from 0.5% to 5.0% THC. The Senate amended the bill and decreased the amount of THC to 1% THC.

Since the pro-drug proponents have been [unsuccessful](#) on the state level, they have announced that they will next try to get initiatives on local ballots through a progressive organization called [Ground Game Texas](#). They are well funded, so we recommend that every community be proactive and pass local measures to stop these drug-expanding policies. We will have more information on how to pass local laws soon.

We appreciate all of you!

The team at Citizens for a Safe and Healthy Texas
