

Citizens for a Safe and Healthy Texas

The Texas legislative session has ended, and thanks to our hard work, no marijuana bills made it into law.

We are grateful to everyone who helped make this happen!

Our advisors, like Dr. Matt Poling and Jesse LeBlanc, helped Aubree Adams educate the Texas legislators.

Aubree Adams is a former Colorado mom who testified against full legalization in the House Committee on 4/26/2023 to help kill bill HB 3652, which would have fully legalized commercial marijuana, which she calls **industrialized THC**.

Aubree then visited every Senator's office and provided why HB 1805 and HB 218 would harm Texas families.

- HB 1805 would have increased access to THC through the Texas Compassionate Use Program.
- HB 218, presented as a discrimination bill, would have legalized large amounts of THC, including synthetic THC derived from hemp.

[To learn more about these bills, please click this link.](#)

We all deserve to take a deep breath and congratulate each other. However, we know this "War For Drugs" is well funded, so we will take

this break to be proactive and continue to educate Texas communities and our elected officials.

Thank you for your time, effort, and support,
