★ Alert ★ Alert ★ Alert ★ Alert ★ Alert ★ Alert ★

Dear CSHT members,

We need your help to [stop the marijuana expansion in Texas](#). Per our email yesterday, there are three bills currently being considered, one of them being HB 2593, which would decriminalize high-potency marijuana, and other hallucinogenic drugs. This bill somehow passed the House and Senate and is not back in the House for revisions.

Please call (1-800-843-5789) Gov Gregg Abbott and ask him not to sign this bill as it will open the door to the same problems Colorado is now working on trying to get a handle on after data proved the harms to youth and others:

Governor Abbott, please do not sign HB 2593

into law. Last week, Colorado introduced a bill (HB 1317) to get a potency cap on their marijuana products. Hundreds of families testified of the horrific effects caused by these products including [addiction](#), [psychosis](#), [Cannabinoid Hyperemesis Syndrome](#) (CHS), and [suicide](#). High potency marijuana (THC) is a hard dangerous drug. Gov Abbott, HOLD THE LINE AND KEEP MARIJUANA MESSES FROM INCREASING IN TEXAS. **Veto HB 2593!**

Also, please take the time to read through the [Every Brain Matters Science page](#) for peer-reviewed studies on the dangers of today's marijuana. If you would like the second opinion of a growing *international* group of doctors and researchers, visit the newly formed INTERNATIONAL ACADEMY ON THE SCIENCE AND IMPACT OF CANNABIS AT [IASIC1.ORG](#).

Thank you for all your help for the great state of Texas!!
